

Certum Partner Panel

Convenient SSL certificate
management

ASSECO

Certum Partner Panel

Convenient SSL certificate management.

Certum Partner Panel is an intuitive tool integrated with Certum Partner API that allows to place orders for SSL certificates. It provides a simple way to monitor them, including checking their status and verification progress. That is, it streamlines the process of managing the life cycle of certificates and transferring them to end customers. They can also be successfully implemented in organizations.

Each Partner through their account in Certum Partner Panel can:

- order products in a convenient way,
- manage issued SSL certificates,
- monitor the order status,
- use Certum's knowledge base and manuals.

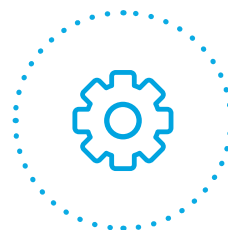

See what sets **Certum Partner Panel** apart:
