Certum Code Signing Certificate

Become a trusted publisher.

Certum Code Signing Certificate allows you to digitally sign applications, drivers and programs. It certifies their authenticity, guarantees security, and **eliminates the “Unknown Publisher” message**, i.e., the issue of code anonymity on the Web. It provides assurance that software has not been modified, infected or corrupted. It also protects it from unauthorized access and theft.

Certum Code Signing allows you to:

- Gain the trust of your users.
- Increase your brand reputation.
- Authenticate software.
- Secure intellectual property.
- Protect your recipients.
- Guarantee the security of programs and applications.

Confirm the authenticity of your code, programs and applications.

Choose a certificate tailored to your needs:

Open Source

open-source software developers

You provide your customers with a website that guarantees shopping and transaction security.

Standard

individual private use/ companies

Build relationships with your users and business partners by gaining their trust.

EV

companies/organizations

Benefit from the additional protection with the Microsoft SmartScreen Filter.

Protect your code from **malware**.

Securely sign linux/unix software applets and Java-based applications, binary files, Windows libraries, etc. With Certum Code Signing, you gain the security of your code and the confidence that it has not been altered since you signed it.

Use it **anyway you want**.

The Certum Code Signing Certificate can be uploaded to a cryptographic or virtual card, which eliminates the need for a hardware token and ensures compliance with security standards and CA/B Forum rules.

Choose **a solution that your recipients trust**.

Certum Code Signing allows you to:

- Double your reputation with the Microsoft SmartScreen.
 - Gain the ability to easily integrate it with other tools.
 - Quickly detect any attempts at forgery and tampering with the code.
 - Efficiently verify the signature and its validity.
 - Obtain the verified publisher status with the CA accreditation.
-

Choose **quality**.

Choose among the solutions offered by Certum, the leader in trust services in Europe.
